□ BUSINESS PROPOSAL

Education Loan Lead & Referral Network Program

1□ Executive Summary

This proposal outlines a structured student referral network designed to help students access education loans while creating an income opportunity for campus ambassadors.

Our company connects students seeking education loans (India & Abroad) with partner banks and NBFCs. We manage the full loan process from eligibility check to disbursement.

Students can join as Campus Finance Ambassadors and earn commission for every successful loan disbursement through their referral link.

2□ Business Model Overview

How It Works

1. Student Ambassador registers with us.
2. They receive a unique referral link.
3. They share the link with friends, classmates, and networks.
4. Interested students fill out the loan eligibility form.
5. We process the application with partner banks.
6. On successful loan disbursement, the ambassador earns commission.

3□ Problem Statement

Many students:

- Do not understand loan eligibility
- Are confused between banks

- Struggle with documentation
- Don’t know about non-collateral options

At the same time, students trust peer recommendations more than advertisements.

---

4 Our Solution

We provide:

- Free education loan eligibility check
- Multi-bank comparison
- Collateral & non-collateral options
- Complete documentation support
- Faster approval coordination

And we empower students to earn by referring others.

---

5 Campus Ambassador Program

Role of Campus Ambassador

- Share referral link with network
- Promote loan assistance services
- Generate qualified leads
- No processing or documentation responsibility

We handle the entire loan process.

---

6 Referral System Structure

Each registered ambassador will receive:

- A Unique Referral Link
  Example:
  www.yourloancompany.com/apply?ref=RAHUL123
- OR a Pre-filled Google Form Link with their referral code.

Every lead submitted through that link is automatically tagged to that ambassador.

Lead Tracking Process

Each lead form will capture:

- Student Name
- Contact Details
- Course & University
- Loan Requirement
- Referral Code (auto-captured)

All leads are recorded in a central tracking sheet.

Ambassadors can receive:

- Monthly performance reports
- Status updates on referrals
- Disbursement confirmation

---

7 Commission Structure

Example Commission Model:

Loan Amount	Ambassador Earnings
Up to ₹10 Lakhs	₹3,000
₹10–25 Lakhs	₹5,000
₹25 Lakhs+	₹8,000+

OR

0.25% – 0.50% of disbursed loan amount.

Payment Timeline:
Commission paid within 7 days of confirmed disbursement.

---

8 Eligibility for Ambassador Program

- College student (UG/PG)
- Strong peer network
- Active in student groups
- Responsible & professional

Limited slots per college to maintain exclusivity.

---

9 Benefits for Ambassadors

- Earn ₹5,000 – ₹25,000 per successful referral
- Flexible work (100% remote)
- Internship certificate
- Performance-based bonuses
- Leadership opportunity

Legal & Compliance

- All student data remains confidential.
- Leads are shared only with partnered banks/NBFCs.
- Ambassadors are not involved in financial advisory.
- Written referral agreement will be signed.

How to Implement Referral Links (Practical Setup)

Here’s how you can technically create referral tracking:

Option 1: Google Form Method (Simple Start)

1. Create one master Google Form.
2. Add a field: “Referral Code”
3. For each ambassador:
    - Create a pre-filled link with their unique code.
    - Example:
      RAJ001
      PRIYA002
4. Share that link with them.

When someone fills it → referral code auto-captured.

Option 2: Website + Tracking (Scalable)

Use:

- WordPress + Affiliate plugin
- Or tools like:
    - GoHighLevel
    - FirstPromoter
    - Tapfiliate

Each ambassador gets:

- Unique dashboard
- Real-time tracking
- Referral analytics

□ Revenue Model

Revenue Source:
Commission received from banks/NBFCs (1%–3% typically).

Revenue Split:
Company retains 60–70%
Ambassador receives 30–40% of commission

Sustainable and scalable model.

□ Growth Strategy

Phase 1:

- Recruit 20 ambassadors across 5 colleges.

Phase 2:

- Expand to coaching centers.

Phase 3:

- Build city-level student referral network.

□ Conclusion

This model:

- Solves real student financing problems
- Creates income opportunities for youth
- Builds a scalable lead generation engine
- Strengthens relationships with financial institutions

We aim to become a trusted education loan facilitation network powered by students.
